Personal

Born: February 3, 1988, Berettyóújfalu, Hungary

Marital status: married, 1 child

Education and qualifications

2018	Ph.D. in Mechanical Engineering	Budapest University of Technology and Economics
2015	Graduate Certificate, Lean Production Specialist	Budapest University of Technology and Economics
2012	M.Sc. in Mechatronics Engineering	Budapest University of Technology and Economics
2010	B.Sc. in Mechatronics Engineering	Budapest University of Technology and Economics

Current positions

2018-pres.	Industrial Data Analytics Expert	EPIC InnoLabs Ltd.
2018-pres.	Research Fellow	EPIC Centre of Excellence in Production Inf. and Control at MTA SZTAKI

Experience

2013–2018	Ph.D. Candidate	Budapest University of Technology and Economics (BME) Doctoral School for Mechanical Engineering Sciences
2012–2018	Research Associate	Research Institute for Automation and Control (SZTAKI), Hungarian Academy of Sciences (MTA)
2010–2012	Graduate Intern	MTA SZTAKI
2010	Intern	Tecnoweld Kkt.
2009	Intern	Continental Automotive Hungary, EBS R&D

PhD Thesis

Production and capacity planning methods for flexible and reconfigurable assembly systems

- Budapest University of Technology and Economics, 2018
- Supervisor: Prof. László Monostori, academician
- Topics: industrial engineering, production & operations management, optimization, simulation, data analytics
- <https://github.com/dgyulai/PhD>

Interests

- Data analytics for production planning and control
- Manufacturing and operations management
- Capacity and production planning methods for assembly systems
- Modular and reconfigurable manufacturing systems
- Discrete-event simulation
- Mathematical modeling
- Statistical learning
- Robust production planning and control

Honours and awards

- 2017 MTA SZTAKI Award for outstanding research
- 2015 Young Scientist Scholarship of Hungarian Academy of Sciences
- 2015 Young Researcher Award of MTA SZTAKI
- 2015 Annual Scientific Forum of PhD students, MTA SZTAKI; 1st place
- 2015 Annual Scientific Forum of PhD students, Budapest Univ. of Techn. and Economics; 2nd place
- 2014 Annual Scientific Forum of PhD students, MTA SZTAKI; 1st place
- 2011 Conference of Scientific Students' Associations; 1st prize
- 2011 Siemens PLM Student Design Contest; 1st prize
- 2009 FESTO Robotino Olimpia; 4th prize

Skills

Software skills: FICO XPress, Gurobi, R, Python, Microsoft .NET, NoSQL (MongoDB, Cassandra), SQL, Siemens Plant Simulation, Siemens Preactor, Apache technologies (Spark, Flink etc.), MATLAB, LabVIEW, Wolfram Mathematica

Language skills:

- English: fluent CEFR Level: C1 (TOEFL iBT 102 scores, 2015)
- German: good CEFR Level: B1

Key projects

- StaProZell – Stabile Produktion in wandlungsfähigen zellenorientierten Montagesystemen durch einen Digital Twin, FFG – Austrian Research Promotion Agency (2018 - 2021)
- EXCELL – Big Data Applications for Cyber-Physical Systems in Prod. and Log. Networks, EU H2020, (2016-2018)
- EPIC – Centre of Excellence in Production Informatics and Control, EU H2020, (2017-2024)
- Hitachi Yokohama Research Laboratory – MTA SZTAKI collaborative research project (2017-2019)
- iKOMP project, Layout planning and optimization workpackage, (2015-2017)
- RobustPlaNet, Shock-robust Design for Plants and their Supply Chain Networks, EU FP7, (2013-2016)
- E.ON service planning, Optimization-based planning of electricity network services (2012-2013)
- Milkrun Planner, Development of a shop-floor logistics software with Fraunhofer Austria (2012-2013)
- Knorr-Bremse Benchmark Factory, Reorganization of the low-volume assembly segment, (2012-2013)
- Knorr-Bremse SampleShop, Design and evaluation of modular assembly systems, (2010-2012)

Publications

ORCID ID: <https://orcid.org/0000-0003-1422-1130>

Scopus ID: 55769676800

Mendeley Profile: [dvid-gyulai](#)

[MTMT publication database link](#)

[Google Scholar link](#)

- All publications: 32
- Cumulative impact factor (published): 17.2
- h-index: 6
- Published journal papers: 7
- Published conference papers: 22
- Independent citations: 80+
- Patents: 1

Journal papers

1. Carvajal Soto, J. A., F. Tavakolizadeh, D. Gyulai, and E. Zudor (2018). An online machine learning framework for early detection of product failures in the Industry 4.0. *International Journal of Computer Integrated Manufacturing*. Accepted.
2. Manzini, M., J. Unglert, D. Gyulai, M. Colledani, J. M. Jauregui-Becker, L. Monostori, and M. Urgo (2018). An integrated framework for design, management and operation of reconfigurable assembly systems. *Omega* **78**. IF: 4.31, 69–84. DOI: 10.1016/j.omega.2017.08.008.
